Stokbord® Sheet is a versatile and durable board, which is ideal for agricultural and equestrian use. Made from 100% recycled plastic, it can be used to replace traditional materials, such as timber, plywood and steel.

Offering excellent value for money and proven over many years, Stokbord® Sheet can easily be fabricated by routing, cutting and shaping.

## Stokbord® Sheet can be used for:

- Sheep and pig pens
- Poultry housing
- Cattle races
- Gates and fencing
- Trailer flooring
- Floors, wall lining and cladding
- Partitioning
- Stable lining

- **Tough and durable – lower whole life cost**
- **Maintenance free – no painting or treating**
- **100% recycled material**
- **Rot proof and long lasting**
- **Resistant to chemicals and pressure washing**
- **Non-toxic and chew resistant**
- **Easy to fabricate**
- **Custom sizes and colours available**  
(subject to minimum order quantity)

**For more information email [info@centriforce.co.uk](mailto:info@centriforce.co.uk) or call our Customer Service Team on 0151 207 8109.**

Stokbord Sheet is manufactured from post-consumer and post-industrial recycled plastic. This means that there can be some variability in product performance and within finish and colour uniformity. The degree of variability is controlled by our ISO 9001 Quality Assurance scheme. All plastics are susceptible to thermal expansion and contraction with temperature changes. For more information, please refer to the relevant Technical Data Sheet for this product.

**Certification ID**  
10061212 for ISO9001  
10118909 for ISO14001  
10005533 for OHSAS18001
